

DON CRAIG ROOM - TECHNICAL SPECIFICATIONS

The Don Craig Room is a multi-purpose room. It is available for small cabaret style shows, drama, meetings and conferences. It is also used as a rehearsal space and additional dressing/holding room.

CAPACITY - 100 persons (including performers and staff)

LOAD IN AREA

Equipment is brought into the venue via the Pacific Hwy Theatre entrance on the western side of the building.

STAGE DIMENSIONS

The stage is modular and consists of 5 sections. The permanent main section is 3m x 3m x 0.6m high. The other 4 are 2.4m x 1.2m x 0.6m standard risers, which can be used to extend the width of the main stage (normally 2 per side).

Stage surface is plywood painted low sheen black.

Stage width - 7.8m (total with extensions)

Stage depth - Centre section 3m

Extensions 2.4m

Stage floor to ceiling - 3m clearance

STAGING

Standard 2400 x 1200mm Stage Risers (with black velvet skirting) are available for use. Please advise ASAP if risers are required. *(Additional hire charges apply & setup fees may apply)*

Heights: 300mm x 4

600mm x 1 (in addition to stage layout as outlined above)

900mm x 8

Lecturn

Whiteboard

DRAPERY

The rear wall of the stage area is covered by a 6m x 4.2m white cyclorama masked on either side by black wool drapes. This can be used as a projection screen.

DRESSING ROOMS

Dressing room space is limited and subject to availability depending on events occurring in the main theatre. If there are no events in the main theatre, these dressing rooms can be made available for use. If there are events in the main theatre alternative arrangements must be made. There is a small curtained off area in one corner of the Don Craig Room, which can be used. Other options include the administration offices of the theatre. Please advise ASAP if dressing room facilities are required.
